COUNTRY	Rumania	REPORT NO.		25X1
SUBJECT	Sovromtransport	DATE DISTR.	22 December 1953	
	25X1	NO. OF PAGES	4	
DATE OF INFO.		REQUIREMENT NO.		25X1
PLACE ACQUIRED		REFERENCES		

25X1

1. The central headquarters of Sovromtransport (SRT) is located at Strada Povernei No. 1 Bucharest, in a two-storied building enclosed by a court about 15 by 60 meters large. At the entrance, which consists of double metal doors, there is a guard who wears the uniform of SRT and has an automatic telephone at his disposal. On the wall is a sign about one by two meters large which bears the inscription in Rumanian and Russian: "SOVROMTRANSPORT, Rumanian-Soviet Company of Fluvial and Maritime Transports". Automobiles, mostly American models, were observed but they were not parked in the court. The front of the building measures 35 by 60 meters with ten visible radio aerials, and has three entrances:

1. An entrance for the Soviet offices and for the first floor.
(radio section)
2. An entrance for the cashier's office and the canteen.
3. A main entrance.

2. The Soviet services occupy connecting offices on each side of entrance No. 1. The majority of the offices are for officers and especially seamen, several of whom wear epaulettes on a blue background. On the first floor to the left are the offices of the radio staff. The use of the second floor remains unknown. To the left of entrance No. 2 is the cashier's office; on the other side of the entrance a stairway leads down to the basement where the canteen for the SRT staff is located (one well-prepared meal for seven lei). The use of entrance No. 3 which opens onto the ground floor is not known. On the first floor, a large room, which is divided into two unequal sections by a partition one meter high, contains records and projects. Two other rooms are occupied by the service personnel and the rest of the floor by the staff. The second floor is occupied by the Soviet offices.

4. Technical Radio Installations

The room on the first floor of Central Headquarters (7 by 7 meters) contains three C. B. broadcast transmitters (English type) of 600-800 wattage that operate on short wave and are piloted by quartz. They were installed in 1949. The second workroom (5 by 7 meters) houses seven receptors, two German "Telefunken" transmitters and three C. B.s. Of these five transmitters on hand, two are in reserve. Equipment for operation of the C. B.s and also the senders are both Soviet. One sending-receiving group works with the agencies, another with the ships and a third group works only occasionally since the "Radio Coasta" of Constanta (Coastal Radio) was put into operation. The third room (2 by 3 meters) contains a C. B. receiver imported in 1950 which is connected to two or three transmitters in the first room. The operator, named Bugg [REDACTED] Traffic with the Soviets is personally maintained by the Inspector, Dolgosev.

5. Regional Agencies

Braila:

- a. The Braila office controls the sector comprised by the mouth of the Siret River, Oltenita and the Macinul Canal. It is set up on the port opposite the passenger landing platform. It is a brick building, flanked by two 16 meter-high towers with a facade, 25 by 30 meters. The main entrance opens onto a waiting room from which two doors lead to the back of the building. On the ground floor are the cashier's office, the canteen, the personnel service and the employee (seamen) service. On the other side are the offices of the director and of records. On the first floor are the director's lodging of three rooms, the dormitory for permanent personnel, the radio room and opposite the latter is a storeroom. To the right of the building is a wooden storehouse that houses the material office (30 by 50 meters).

b. Personnel

- 1) Director: Tacu, fnu [REDACTED]
- 2) Transport Service: Milivoi, fnu [REDACTED]
- 3) Radio Service: Popa, fnu [REDACTED]

25X1
